Subject: Free Transportation Facility for Women Faculty and Lab Technicians

The undersigned is delighted to announce a new initiative at Rajiv Gandhi College of Engineering and Technology, Puducherry, aimed at supporting and promoting gender equality within our institution. Starting from 8th June 2023, the transportation facility will be provided free of charge for all women faculty members and Lab Technicians.

This decision has been made to acknowledge the valuable contributions of our women faculty and Lab Technicians and to eliminate any barriers that may hinder their participation and involvement in college activities. We believe that by offering this transportation service, we can create a more inclusive and supportive environment for everyone.

The free transportation facility will be available for all women faculty members and Lab Technicians commuting to and from the college. We understand that transportation can often be a logistical challenge, and we hope that this provision will ease the burden for our women staff members and enable them to focus more on their important roles in teaching and research.

I would like to express my gratitude to the management and the Transport Department for their cooperation and support in implementing this initiative. Together, let us create an environment that fosters gender equality, inclusivity, and professional growth.

Thank you for your attention, and I look forward to your continued dedication and contributions to Rajiv Gandhi College of Engineering and Technology.
